Domoproof® Flashband

Self-Adhesive Flashing Tape

Description

Domoproof Flashband is a waterproof, bituminous self-adhesive flashing tape that bonds securely to various surfaces including brickwork, concrete, cement, wood, metal and most rigid plastics.

Technical Characteristics

Product Properties	Domoproof Flashband
Material (Top)	Aluminium
Material (Bottom)	Self-adhesive bituminous compound
Width (mm)	50/100/150/300/1000
Length (m)	10

Application Instructions

- Cut the adhesive tape to the required length
- Remove the backing. Press the tape into place using fingertip pressure, avoiding excessive pressure.
- When laying adjacent rolls, the flashing tape must overlap by at least 25 mm.
- Use a seam roller to smooth the flashing tape and ensure good contact is made.

Storage

Store in cool, dry place.
